JACKSONVILLE, ILLINOIS, SUNDAY MORNING, JULY 31, 1904.

## WILL FIGHT TO A FINISH

### NO SIGN OF ABATEMENT SHOWN IN STRIKE

**Packers Claim to Have Won the Fight While Labor Leaders Talk the Other Way—Statement by President Donnelly.**

Chicago, July 30.—The conflict between capital and unionism which has been going on in the packing trades industry throughout the country nearly three weeks shows no sign of abatement. To night both interests seem as determined as ever on a fight to a finish and the indications are that the struggle will continue until one side or the other makes a complete surrender.

The packers to night declare they have practically won their fight; that the strikers are becoming demoralized. In direct opposition to this statement strike leaders assert that victory is with the workmen and it will be a matter of but a short time until the packers will be compelled to ask for peace. Leaders of four allied trades unions which struck in sympathy with the packing house butchers are said by the packers to have made overtures to day for reinstatement. According to the packers, emissaries from these four trades sought to learn upon what terms the strikers would be reinstated should they return in a body. The answer the packers say they gave these peace missionaries was that the strikers would be re-employed as fast as conditions might warrant, but only as individuals and not as members of any union.

The strike leaders disclaimed any knowledge whatever of the action taken by the four unions and repeated their assertions that the outlook for victory for the striking workmen was more satisfactory than ever. During the afternoon there was an attempt on the part of disinterested parties to induce President Donnelly to appeal to President Roosevelt to offer his good offices and bring the strike to an end. Donnelly refused to consider the proposition. "We are winning the strike and need no help from the president," said Donnelly. "There may be a few desertions from our ranks but they are comparatively few and do not hurt our cause to any extent. All talk about strikers being on the verge of starvation is nonsense. Up to date there have been about 2 per cent of the entire number of strikers who have applied for relief. We are prepared to carry on the strike indefinitely, having stations well equipped to supply all our men with food, and distribution will be increased as the strike continues."

A committee from the striking trades met officials of the Union Stock Yards and Transit company to day in reference to the work of the livestock handlers. After the situation had been canvassed it was decided to permit the men to continue handling livestock both for packers and independent concerns until some method might be devised whereby the Union Stock Yards and Transit company could be protected from possible injunction proceedings for discriminating against packers.

The packers continued to day to add to their forces of nonunion men. During the day six hundred strike breakers, most of them white men, arrived at the stock yards. Against this arrival of new employees was registered the desertion of three hundred men who were taken into the yards since the strike began.

Relief stations opened to day by the packing trades relief committee were besieged all day by men and women seeking food. By evening all supplies in the stations had been given away. Several injured persons who had failed to reach the counters until too late were turned away empty handed. The strikers say the reason the supplies gave out so quickly was because hundreds of outsiders took advantage of the opportunity to secure free provisions.

Chicago, July 30.—Before the meeting of the allied trades assembly it was disclosed a resolution would be introduced demanding that President Roosevelt give word that United States district attorneys all over the country begin criminal prosecution against every man engaged in the conspiracy to control the prices of livestock and meat food products handled by packing industries. It is to be urged upon the president that the best interests of the entire country are prejudiced by the great strike, which has affected all parts of the country, and that widespread misery has been caused.

Inspector Hunt to day said that should Sheriff Barrett and deputies invade the stock yards district he would arrest every man. The sheriff was last night called upon for protection from the police by strikers.

No agreement was reached at the conference concerning livestock handlers to day between a committee of the allied trades unions and Superintendent Leonard of the Union stock yards.

Recognizing the necessity for general action to relieve strikers' families officers of various locals began to day the distribution of commissary tickets which were honored in the strikers' relief market.

Obeysing Inspector Hunt's orders to have no mercy on strike pickets found interfering with nonunion men, the police were more active to day than in any time since the strike began. Strike pickets accosting teamsters, etc., were arrested unsparringly and in some instances when resisting arrest were clubbed freely.

## DISCUSS LABOR CONDITIONS

### QUESTION TAKEN UP BY THE PRESIDENT

**Roosevelt Confers With Attorney General Moody, Secretary Metcalf and Labor Commissioner Wright.**

Washington, July 30.—Labor conditions generally throughout the country were the subject of a conference which the president held at the white house to day with Attorney General Moody, Secretary Metcalf of the department of commerce and Commissioner of Labor Wright. The conference was of considerable importance to the administration and to labor generally. Soon after the conference began the president's attention was called to the fact that a report had already been sent out of Washington stating the conference was called to consider the Chicago strike. Promptly the president authorized the announcement that the Chicago strike would not be discussed at the conference, and it was not, according to statements of those present.

Regarding strikes in various parts of the country, the president and his advisers agreed that at no point had any of these passed beyond the scope of local treatment, nor was the administration called upon at this time to take action. As for the pending meat strike, although it was not specifically discussed at the conference, it can be stated that the administration does not consider that a national emergency has been perpetrated as was the case of the coal strike. Until such emergency has been created there will be no official consideration of it by the administration.

St. Joseph, Mo., July 30.—There were numerous clashes between strikers and nonunion men to day and several of the latter were beaten. All teamsters employed by Morris, Swift and Hammond were stopped by strike sympathizers and forced to return to stock.

New York, July 30.—Five hundred butchers employed in independent packing houses of this city who have been slaughtering beef for western houses in the strike were notified to day unless they immediately stopped killing they would be ordered on strike.

Kansas City, July 30.—Many strike breakers have been taken into the packing houses here during the past forty-eight hours and many have been run away by union pickets. Both sides say they gained to day. The packers report their plants in full operation and the strikers say they have won back many of the men who went back to work and many of the strike breakers.

St. Louis, Mo., July 30.—The manager of the Cudahy plant announced to day that unless the strikers returned to work Monday he would hire others and none of those now out would be re-employed.

New York, July 30.—The advisory board of the butchers' union to night decided to submit to a vote of the members the question of striking or remaining at work and help the Chicago strikers by giving part of their earnings. The result of the vote will probably be announced Tuesday.

RIOT AT ST. JOSEPH.

St. Joseph, Mo., July 30.—Rioting again broke out in the vicinity of the stock yards at South St. Joseph at 10 o'clock to night, when packers endeavored to smuggle in a squad of nonunion men. Sixty policemen lined up across Illinois avenue to oppose a mob of strikers. A fierce hand to hand battle occurred. From Nante, one of the strikers, was badly hurt and may die. Several special policemen deserted during the fight, throwing away their stars and clubs. The strikers say they will have two thousand men at the plant to morning morning to prevent the entrance of two car loads of nonunion men who will arrive on a Burlington train from Chicago.

THE SAENGERBUND

**Musical Part of the Program Closed—Business Meeting and Picnic to Day.**

Milwaukee, July 30.—With a gala matinee and night festival at the exposition building the musical part of the program of the saengerfest of the Northwestern Saengerbund came to a close. A business meeting to morning followed by a parade and picnic at Pabst park will end the festival. Soloists at both performances to day, including Madame Schumann-Hoink, Madame Fish-Grafflin and Ellison Van Hoese, were received with great demonstrations of applause. The children's chorus at the matinee and mass chorus in the evening were also recipients of much applause.

The first meeting of the saengerbund was held to day. Committees on credentials and finance were appointed. Another meeting will be held Sunday afternoon, at which reports of officers will be read, new officers elected and the place of meeting two years from now will be chosen. It is the general belief that La Crosse or Davenport will be selected for the next fest.

BANK STATEMENT.

New York, July 30.—Loans, decreased \$2,511,100; deposits, increased \$3,522,400; reserves, increased \$3,280,000; surplus, increased \$5,380,000; United States deposits, increased \$5,382,025.

CHAMPION SCULLER.

Sydney, N. S. W., July 30.—George Towns, holder of the title, defeated Dick Treslader, of New Castle, on the Parhamatta course to day for the world's sculling championship and a purse of \$5,000.

RYAN IN ST. LOUIS.

St. Louis, July 30.—John J. Ryan arrived in St. Louis to day in custody of detectives to answer four indictments charging embezzlement of \$500,000. He was released on bonds of \$7,000.

NO NECESSITY FOR TROOPS.

Omaha, July 30.—Governor Mickey spent several hours in Omaha to night in conference with attorneys of the packers and with strike leaders. After the conference the governor declined to speak of the subject of his meeting on either side. It was stated, however, that the governor has decided that for the present there is no necessity for sending state troops to South Omaha.

## HEAVY ALIMONY

### Chicago Woman Granted Divorce and Fifty Thousand Dollars.

Chicago, July 30.—Mrs. Minnie C. Love was given a divorce to day from Sidney C. Love with \$50,000 alimony, \$25,000 of which was paid in court. The remainder is to be paid in the next three years in annual installments. The grounds for divorce set forth by Mrs. Love were cruelty and desertion. In addition to the alimony Mrs. Love was allowed \$4,500 to cover her expense since separation from Love and \$2,000 to cover lawyers' fees. The Loves were married in October, 1888. The bride was formerly Miss Minnie Cool, of Fairbault, Minn. At the time of her marriage to Love she was the widow of a wealthy Philadelphian. The couple separated in August, 1903. Sidney C. Love is a broker and well known in club circles.

HOWING CONTESTS.

Creve Coeur Lake, Mo., July 30.—Frank B. Greer, East Boston, who so decisively defeated Constance S. Titus in the championship single sculls last year, to day successfully defended his title of national champion against Titus and the best single scullers of the United States, winning the event in 10:38.3. Other winners: Intermediate double sculls—Ravenwood, B. C., Long Island City, N. Y.; 10:46.1. Intermediate four—South Side, Quincy, Ill.; 39:1.4. Senior international four-oared shells—Century, St. Louis; no time announced. Senior double sculls—Atlanta, New York City; 10:30. Intermediate single sculls—Frederick Shepard, Ravenswood, Long Island City; 10:30. Association scull—D. B. Duffield, Detroit; 10:48.4.5. Senior eight-oared shells—Vesper, Philadelphia; no time announced.

TRAP SHOOTING EVENT.

West Baden, Ind., July 30.—The great trap shooting event of the season will begin here Aug. 3. It will be at clay targets and under the auspices of the "Indians" association, fifty of the most popular and expert trap shots of the country. It will be an open for all shot, \$1,000 added to the events, and at least \$5,000 prize will be shot for. The distance handicap prize will be a \$300 silver cup trophy. Three silver cups for general leverage mark are to be shot for by those who on the program finish in the 20, 30 and 70 per cent classes. Each man will shoot at fifty targets. The value of the three cups is \$500. All champion shots will be present and crack professional and amateur shots of the country will participate.

PLANTS CLOSED

**Fifteen Thousand Workmen to Be Thrown Out of Employment.**

Chicago, July 30.—The three plants of the International Harvester company will be closed Monday for an indefinite period and 15,000 workmen will be thrown out of employment. The company's officials declare the shutdown has been ordered that an inventory of all stock of the company may be taken and say the plants will be started again in a few weeks.

AMATEUR ATHLETIC UNION.

St. Louis, July 30.—The championship meeting of the Western association of the Amateur Athletic union was held at the state fair grounds to day and the Missouri Athletic union of St. Louis won the championship. A new western record was established in the 220 yard run, the former record of 22.15 seconds being lowered to 21.45 by F. R. Moulton, of Kansas City. In other events good records were made, but no previous records were broken.

A WAVE OF WATER.

Reno, Nev., July 30.—A wave of water averaging five feet in depth swept over Douglas and Silver Peak near Soda Lake, Nev., to day, due to a cloudburst. It is not known whether any lives were lost, though it is known several buildings were swept away.

Kingman, Ariz., July 30.—Heavy rains in the mountains east of Trutson last night sent a wall of water thirty feet high through the canyon, washing out the Santa Fe railroad track embankment, bridges, telegraph poles and everything moveable for a distance of twelve miles. Great steel bridges were taken from their foundations and piled up against the walls of the canyon. Massive stone abutments were crumbled and carried away. Many miles of telegraph wire are down.

RAILWAY APPOINTMENT.

Chicago, July 30.—G. K. Thompson was to day appointed general western passenger agent of the West Shore railroad, headquarters at Chicago. For fifteen years Thompson has been Chicago passenger agent of the Wisconsin Central.

TROUBLE IN BOGOTA.

Colon, July 30.—News from the coast of Cartagena says rumors are in circulation of an upheaval in Bogota. President Marroquin and President-elect Reyes are, the rumor says, declared to be traitors, and congress has been closed.

## FALL OF PORT ARTHUR DENIED

### JAPS PRONOUNCE RUMOR UNFOUNDED

**Fighting Still Going on Around Besieged City—Declaration of Russian General Staff—War Reports.**

Tokio, July 30.—The rumor of the fall of Port Arthur is officially pronounced unfounded. St. Petersburg, July 31, 3:48 a. m.—In view of the rumors of the storming and fall of Port Arthur, the general staff authorized the Associated Press to declare positively that not a single position forming the land defenses of Port Arthur has as yet fallen into the enemy's hands and that the besiegers are now no nearer than eight or ten miles to the fortress. The general staff also declares the recent bombardments were nothing more than preliminaries to an attempt to capture one of the outer positions, probably Lantuntan, to the east. If the Japanese should succeed in taking these positions they will have to bring up siege guns under a flanking fire from adjoining positions and from cruisers sent out for this purpose. If this task proves possible then only will the Japanese be able to bombard the fortress itself and prepare for the final assault.

THE ARABIA.

Vladivostok, July 30.—The prize court here will begin an examination into the case of the steamer Arabia, seized by the Vladivostok squadron, to morning. The German captain of the steamer declares that when the American companies in Portland hired the boat he did not know that he was expected to carry contraband material. He protested when he discovered the nature of the cargo, as did also the Hamburg company which owned the boat. The American charterers assured them, however, there was no danger of capture, as the Vladivostok squadron was not near her route. If this is confirmed in court the vessel and cargo will probably be confiscated.

WAR REPORTS.

Hatcheng, July 30.—The attack on the right flank of the Russian southern army developed at seven Friday morning. The battle opened with heavy artillery fire, under cover of which Japanese infantry advanced along the railway until eleven, when their forward movement was checked. The fighting continued, but the result is unknown.

Tokio, July 30.—The general staff announced this evening five Japanese officers had been killed and forty-one wounded in fighting which had been going on around Port Arthur since last Tuesday. Losses in men not given.

FRANCE AND VATICAN

**Papal Nuncio Informed His Mission in Paris Is at an End.**

Paris, July 30.—Foreign Minister Delcasse this afternoon addressed a note to the papal nuncio to the effect that in consequence of rupture of relations between France and the vatican his mission in Paris no longer had any object. Replying to the French note that the presence of Papal Nuncio Lorenzelli was no longer necessary in Paris the papal secretary of state telegraphed an order to Lorenzelli to leave Paris. The nuncio left to night for Rome.

LOU DILLON FAILED.

Cleveland, Ohio, July 30.—At an exhibition race meeting to day Lou Dillon (158-1-2) attempted to beat 2:08.3-4 to a high wheel sulky, but failed, her time being 2:09.1-4. She showed she had been worked too hard this week, this being the third time she has trotted against the watch since Monday. To night she is seriously ill and grave fears are expressed that she may not recover.

KILLED BY OFFICER.

East St. Louis, July 30.—While Deputy Sheriff Louis Burke was making an arrest to night William McLaughlin, said to be a strike sympathizer, thinking Burke was arresting a striker, interfered, and Burke drew a revolver and shot McLaughlin, killing him instantly.

TRAIN HELD UP.

El Paso, Tex., July 30.—It is reliably stated here that a Rock Island passenger train was held up at Tucuman to night. The express car was dynamited and robbed and passengers held up.

EXCURSION BOAT OVERDUE.

Davenport, Iowa, July 30.—The steamer J. S. with several hundred excursionists on board, cannot be located. The boat has not been seen since 7 o'clock, when near Muscatine, and it is thought to have suffered in the storm. The storm stopped five hours ago and the boat is overdue.

NOT AGAINST LAW.

Topeka, Kan., July 30.—Judge Hazen of the district court to day decided Sunday base ball was not against the Kansas law.

## STARS AND STRIPES

### Do Not Constitute United States Flag Unless Arranged According to Form.

Boston, July 30.—The stars and stripes do not constitute the United States flag unless arranged according to the form authorized by the United States government, according to a decision of Judge Adams in the municipal court to day. The opinion was given in the case of two persons who recently opened a store for the sale of decorations for the coming Grand Army national encampment here and who had been arrested on a charge of desecrating the United States flag by selling a lettered emblem with the usual stripes, but with the stars covering the entire third of the flag nearest the staff. Judge Adams, ruling that this was not a United States flag, discharged the respondents.

BASE BALL SCORES

NATIONAL LEAGUE.

Standing of the clubs—

	P.	W.	L.	P. C.
New York	36	62	24	.721
Chicago	35	52	33	.612

Boston	30	39	57	.397
Brooklyn	31	32	58	.352
Philadelphia	35	22	63	.259

Chicago, July 30.—The visitors were unable to hit Welmer and were blanked. On a close decision declaring Tinker safe at second, in the seventh inning, nearly the entire Cincinnati team surrounded umpire Johnston, and Kelley, Seymour, Huggins and Woodruff were put out of the game for continued objections to the umpire's ruling.

St. Louis, July 30.—Loose fielding lost to day's game for the visitors.

New York, July 30.—Pittsburg took both games, the first by Taylor's wildness, the second through Farrell's wild throw in the eighth, which tied the score, and Leach's hit in the ninth, which brought in Ritzky. Kruger's running catches of two long flies was the feature.

First game—

| FAILED TO END STRIKE. |
| Washington, July 30.—Efforts to end the bricklayers' strike in Washington barracks have failed. An authorized committee from the bricklayers' union to day proposed to Captain Sewell, in charge of the work, that if he would discharge the men (taken on to fill the place of strikers) the men who struck on account of the employment of a colored nonunion bricklayer would return to work. Sewell rejected the proposition on the ground that the strike breakers are now under civil service regulations and cannot be discharged except for cause. |

## CORTELYOU IN CHICAGO

### CONFERS WITH LEADERS FROM MIDDLE WEST.

**Congressman Tawney Chosen to Manage Speakers' Bureau—Executive Committee will be Chosen Later.**

Chicago, July 30.—Chairman Cortelyou of the Republican national committee spent the day conferring with party leaders from the middle west and to night announced that Congressman Tawney of Minnesota had been appointed to manage the speakers' bureau during the campaign. The announcement of the membership of the executive committee will not be made until some time next week. Senator Dick of Ohio, D. W. Mulvine of Kansas, J. E. Milne of Iowa, Chairman Crane of the South Dakota state committee, Charles G. Dawes and Congressman Boutwell were among those with whom Cortelyou conferred to day.

CALL FOR NEW PARTY.

Chicago, July 30.—A call was issued to day for election of delegates to a national political labor party convention to be held in Chicago Aug. 29. Unions affiliated with the Chicago Federation of Labor are behind the movement. It is the intention to form a new political party of workingmen, farmers, single-taxers, Turner societies and reform bodies. The call accuses both the old parties of betraying the confidence of the working people, and the statement is made that in view of political freedom "there is being reaped both a political and industrial despotism unsurpassed even in Russia."

UNDER MARTIAL LAW

**Troops Will Be Sent to Bone-steel to Preserve Order.**

Bonesteel, S. D., July 30.—Troops have been requested by Sheriff Taylor and Governor Herried has agreed to send them. From Aug. 8 until Sept. 10, the filling period, this town will be under martial law. Guards with Winchester are considered essential to protect the \$300,000 which will be brought to town each day. During the filling period soldiers will meet every train and every passenger will be required to stop at the town gates and prove his business is legitimate.

CATHOLIC SOCIETIES.

Cincinnati, July 30.—National Secretary Matre has announced the program for the annual convention of the American Federation of Catholic Societies to be held in Detroit next week. Tuesday evening Rev. Thomas Campbell, of New York, and Judge Carpenter, of Milwaukee, will deliver addresses. Wednesday, evening President Minahan of New York, Nicholas Gonnor of Dubuque, Iowa, and Condo B. Pallen of New York will speak. Important questions affecting Catholics interests will be discussed. The membership of the federation is over one million.

GOVERNOR PEABODY

**Reviews Recent Labor Troubles in Colorado and Defends His Course.**

Denver, July 30.—Governor Peabody issued a statement to day reviewing the recent labor troubles in Colorado and defending his course and the action of the military authorities as necessary. He refers to the Western Federation of Miners as "a criminal organization" and one "which has no counterpart in this country," and concludes with the declaration that his only object in adopting the policy he did was "to show the people of Colorado that the law will be upheld—that a criminal organization cannot dictate the policy of this administration, and that everywhere within the borders of Colorado property shall be secure and labor shall be free."

KILLED AND ROBBED.

Johnstown, Pa., July 30.—While on the way from Portage to Furman carrying a satchel containing \$5,000, with which to pay employees of the Furman Coal company, Paymaster Patrick Campbell was fatally wounded and Charles Hays, his driver, shot and killed by three highwaymen to day. The robbers escaped with the booty.

The police have arrested at Willmore seven Italians in connection with the shooting of Paymaster Campbell and his driver, Charles Hays, to day. Search of the boarding house where the arrests were made disclosed a hat such as Campbell is said to have worn this morning. This is the strongest evidence obtained against the suspects.

A thousand men are to night scouring the country all around Portage in the hope of capturing the murderers. It developed to night that the men arrested are not the men who committed the crime.

## WILL FIGHT TO A FINISH

### NO SIGN OF ABATEMENT SHOWN IN STRIKE

**Packers Claim to Have Won the Fight While Labor Leaders Talk the Other Way—Statement by President Donnelly.**

Chicago, July 30.—The conflict between capital and unionism which has been going on in the packing trades industry throughout the country nearly three weeks shows no sign of abatement. To night both interests seem as determined as ever on a fight to a finish and the indications are that the struggle will continue until one side or the other makes a complete surrender.

The packers to night declare they have practically won their fight; that the strikers are becoming demoralized. In direct opposition to this statement strike leaders assert that victory is with the workmen and it will be a matter of but a short time until the packers will be compelled to ask for peace. Leaders of four allied trades unions which struck in sympathy with the packing house butchers are said by the packers to have made overtures to day for reinstatement. According to the packers, emissaries from these four trades sought to learn upon what terms the strikers would be reinstated should they return in a body. The answer the packers say they gave these peace missionaries was that the strikers would be re-employed as fast as conditions might warrant, but only as individuals and not as members of any union.

The strike leaders disclaimed any knowledge whatever of the action taken by the four unions and repeated their assertions that the outlook for victory for the striking workmen was more satisfactory than ever. During the afternoon there was an attempt on the part of disinterested parties to induce President Donnelly to appeal to President Roosevelt to offer his good offices and bring the strike to an end. Donnelly refused to consider the proposition. "We are winning the strike and need no help from the president," said Donnelly. "There may be a few desertions from our ranks but they are comparatively few and do not hurt our cause to any extent. All talk about strikers being on the verge of starvation is nonsense. Up to date there have been about 2 per cent of the entire number of strikers who have applied for relief. ### TRUNK SEWER

#### PROPOSITION SET FOR HEARING NEXT WEEK

**Board of Local Improvement Will Be in Session Aug. 8, When All Property Owners Interested Can Be Heard in the Matter.**

The question of a trunk sewer for Jacksonville is one that has been up for consideration at different times for many years. As the city has increased in population the necessity for more adequate sewer mains has been a pressing one and the problem has now reached a stage where all citizens, not only those who are to be immediately affected, but the citizens generally will have an opportunity to express their opinions as to the best course to be pursued. A public hearing will be held before the board of local improvements and it is hoped a large number will be present at the time to carefully consider a subject of such magnitude.

The following article has been written by C. W. Brown, city engineer, explanatory of the proposed undertaking.

The necessity of a large outlet sewer for the south half of the city has been growing for about eight years to my knowledge, as in the spring of 1896 and 1897 the sewer along the brook was greatly overloaded and a large force working several weeks discovered no stoppage, and yet the water along the line of the sewer stood from one to three feet above the top of the tile.

The sewer now lies from four feet to four feet six inches below the bottom of the brook, so that the sewer will be full of ground water whenever there is any water in the brook. Consequently the sewer must flow under a head to discharge its quota of sewerage, from the time mentioned, before, at various periods the same thing has occurred and raw sewerage has been discharged into the open brook where there is not sufficient flow of water to carry the sludge.

The channel of the brook is obstructed by all manner of rubbish, filth and brush and has been crowded by abutting property until the channel is in some places scarce its former area.

Some time since Aldermen Kennedy, Johnson and Vaughn made a survey of the entire brook channel in the city limits. They were not a little surprised at the conditions found to exist and were unanimous in their recommendation of immediate action being taken to relieve the same. In relaying our first sewers the plan seemed to be somewhat after the plan followed by Colonel Waring in sewerage Memphis, which was on the separate system, and was the first system put in on a large scale; but our projectors failed to grasp the idea of this method and to see that it did not apply to all places alike. Consequently the sewers, as constructed, have always been a disappointment.

In completely encasing the brook all the filth, unsightly and unwholesome conditions now existing would be removed and the property along the line of the sewer would be equal to other property more remote from the brook, and at the same time removing the constantly increasing ex-

pense to the city of repairing and maintaining an inadequate sewer.

The condition for the past year has been worse than formerly, as the increase of water discharged has been made more annoying by the increase in obstructions and by the more frequent ruptures of the sewer. The grade of this pipe is one foot in one thousand, which, for large sewers, is ample to give self-cleaning velocities, but in small pipes is insufficient.

The condition of the brook and the brook sewer is an increasing menace not only to those adjacent, but to the whole city. Flowing into the present brook sewer are nine twelve-inch sewers, four ten-inch, one eight-inch and one eighteen-inch.

Since the sewage of all cities increased in an increasing rate as the city grows and the amount of storm water, while not increasing in quantity, reaches the main sewer quicker and consequently appears to increase the runoff.

In general, sewage is cared for in either separate or combined systems. The separate system provides one system of pipes, a sewer for house sewage and a large system for storm water. The argument for the former is that the raw house sewage does not pollute the sewer and surrounding property, but, experience has shown that storm sewers become as foul as combined sewers and are more liable to damage surrounding property as they are not generally of as great depth and thereby more liable to damage property by overflow from blocking or disruption. The cost is also largely increased by installing separate systems.

The carrying of storm water, long distances over the street surface, has not been satisfactory in this city and in most cities has long since been abandoned, and for isolated cases 1000 feet is considered the maximum and 500 feet a good practice as the distance water may be carried on the surface. The volume of water for this distance is not sufficient to gather enough trash and street refuse to clog inlets and leave heavy deposits on the street surface.

Our own experience has proven that the washing from street surfaces when once in the sewer will be carried forward and never causes stoppage or blocking.

If you construct a trunk sewer of sufficient size to carry all storm water and sewage, when once completed, it will be good for so long a period that we can scarcely estimate it, and is limited only by the life of good masonry.

The area drained has been computed and the storm water runoff has been gauged, covering a period of about three years, so that the total runoff to be taken care of has been carefully computed.

The total runoff at the outlet will reach 25,000 cubic feet per minute, or 169,660 gallons in one hour—more being taken to relieve the same. In relaying our first sewers the plan seemed to be somewhat after the plan followed by Colonel Waring in sewerage Memphis, which was on the separate system, and was the first system put in on a large scale; but our projectors failed to grasp the idea of this method and to see that it did not apply to all places alike. Consequently the sewers, as constructed, have always been a disappointment.

The line of construction would follow the general line of the town brook, but where curves make it necessary the line would deviate from the same. The construction being of brick and concrete will vary in thickness on the haunches on account of variations in the depth of cut; being heavier where the cut is light, in order to sustain the thrust of the arch. The bottom, where in soft earth, will be supported by a staging of cypress or oak plank, as is usual in all such foundations. The abutment at the outlet will require filling.

The ten-inch sub-drains will be placed below the foundation to take

care of ground water during construction. For taking care of the dry weather flow a twenty-four inch circular channel will be placed in the center of the invert and thereby give sufficient velocity for carrying all which otherwise would accumulate on the invert and cause annoyance. The trench at the spring line would have a total thickness of twenty-four inches in shallow cut, and twelve inches in deep cut. All sewers at present in service will be taken care of by siphonage built in the sewer and all future sewers and storm water inlets will have slants built in for their connections.

The main sewer will run from 10 feet 10 inches in width to 8 feet 3 inches in depth, to 8 feet 9 inches in width by 6 feet 1 inch in depth, exclusive of the 24-inch half circle in the invert.

Several plans for the construction are being considered: A brick arch, side walls and inverts, with concrete backing; a brick arch, with concrete side walls and invert, and concrete reinforcing. This latter is used now for most all heavy construction in all the large cities and by railroad companies, and has the advantage of durability, strength and cheapness.

The total length of the sewer from outlet to head is, in round numbers, 10,700 feet and all lands lying in the district hereafter outlined are or may be drained there, and are therefore subject to assessment for the cost of construction. The cost as estimated is by no means a final estimate, but is given to show the limits of the work on the most expensive plan, but other estimates are likewise given which will be given for your information.

The right of way may be very expensive or inexpensive, according as a jury may see it, but all damages will be but temporary. They should be light and with the exception of a few properties taken, need not injure the land for more than one season.

The right of way for construction should be from forty to sixty feet in width, as the excavation, spoil bank and materials will require ample room, as the cross streets, in most cases, do not afford sufficient access.

The cost of the first plan proposed is estimated to be \$192,400; the second, \$165,700, and the third, \$153,360, but as previously mentioned, this would require careful revision before any assessment was made thereon, and the board of local improvements considers that before further expenditure is entailed—that a public hearing be held on this proposed improvement, and that all parties interested be given an opportunity to appear and express their preference in this matter.

The district will be bounded approximately as follows:

Beginning in the intersection of West State and Inlet streets, running thence east to the center of Prairie street; thence south on Prairie street to the center of Morgan street; thence east on Morgan street to Alley A; thence south to Diamond street; thence east to Mauvasterre street; thence north to Morgan street; thence east to Alley C; thence north to East State street; thence east to East street; thence north to Jordan street; thence east to the intersection of this line produced to Brown street; thence northeast to the junction of the right of way of the C. & A. and Wabash railroads; thence southeast along the Wabash railroad to Johnson street; thence south to Rout street; thence west to Brooklyn avenue; thence south to Henry street; thence west to C. & A. railroad; thence south to Michigan avenue; thence west to Lincoln avenue; thence north one quarter of a mile; thence west one quarter of a mile; thence north to place of beginning.

The assessment may be made by the superficial foot, as this method will give the more accurate results as regards the benefits.

C. W. Brown,  
City Engineer.

#### HANDSOME SOUVENIR.

The Journal is in receipt of a copy of the advertising magazine of the Ely-Walker Dry Goods company of St. Louis, which is also a souvenir of the world's fair city and contains many excellent half-tones representing the various points of interest in and about the city. It also contains half-tones of all the employees of the Ely-Walker company, together with many views pertaining to their business. This artistic advertising souvenir is the work of Byron W. Orr, who is now advertising manager of the Ely-Walker company. He was formerly an employee of the Jacksonville Journal and left here to go to New York city, where he worked for a short time, leaving there to go to St. Louis as advertising manager at Mordred & Jaccard's; resigning his position with them to take up his present work.

#### BRONCHITIS FOR TWENTY YEARS.

Mrs. Minerva Smith, of Danville, Ill., writes: "I had bronchitis for twenty years and never got relief until I used Foley's Honey and Tar, which is a sure cure." Sold by J. A. Obermeyer, City Drug Store.

### WABASH ANNUAL NIAGARA FALLS EXCURSION.

On Thursday, Aug. 18th, the Wabash will run their annual excursion to Niagara Falls, N. Y., and return for \$9.50. Good for return until Aug. 24th. Phone No. 12. W. A. Evans, Ticket Agent.

#### NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; who is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Hair Restorer absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Hair Restorer Co., Detroit, Mich.

#### THE MONEY YOU CAN SAVE

by buying hot, dependable, economical "Ideal" coal is too big in bulk to be overlooked. You can't dodge the fact that common coal is a mighty uncertain investment. Sometimes you get your money's worth—more often you don't. But "Ideal" coal is as firm and unwavering as government bonds. The heat producing elements which nature has stored in every ounce of this perfect fuel are thoroughly reliable—always there, awaiting ignition to release them. We guarantee "Ideal" coal. The test of time has proved it to be the best in every way. Each ton contains 2000 pounds of solid satisfaction—nothing but concentrated heat. Let us fill your bin to day or to morrow. No better time in the whole year than now. \$2.75 per ton, cash.

verly Saturday, after a visit with re-  
latives and friends in this city.

Special sale on watches; Schram's.

## BACK TO MADEIRA.

M. P. Correa, after a ten weeks' visit with his brother, J. P. Correa, south of the city, departed for New York Saturday morning and will sail for his home in Madeira the first of the week. He will be accompanied by his brother part of the way east. He has visited many countries and cities through Europe, Asia, Africa and South America, but says the farm lands of this country are the best he has seen; and Chicago has the great-  
est movement. He was well pleased with the sights of the world's fair. He thinks Jacksonville and surround-  
ings are as beautiful a place for a home as he has seen. He visited this country twenty years ago and finds a great improvement since that time. He likes the liberty enjoyed here and hopes it will never be abused.  
Mr. Correa wishes to thank all his friends and acquaintances for the kindness shown him during his stay in this city.

## EXECUTOR'S SALE OF VALUABLE REAL ESTATE AND MANUFACTURING PLANT.

On Friday, Aug. 5, 1904 the under-  
signed executors will offer at public  
sale at Woodson, Ill., all the real  
estate and personal property and notes  
and accounts of W. P. Craig, decen-  
sed; consisting of tile and brick plant  
and all necessary machinery and two  
dwellings on the factory grounds, also  
the homestead, consisting of three  
lots, eight room two story dwelling  
and about eight acres of pasture  
land; also one lot 90x120 feet and  
three room dwelling. Sale to com-  
mence at 1 p. m. sharp. Terms cash.  
S. J. Baxter,  
Mary A. Craig,  
Executors.

## Four big days of racing at the Fair.

CARD OF THANKS.  
We wish to most sincerely thank  
all relatives and friends who offered  
so liberally of their assistance and  
sympathy during the illness and af-  
ter the death of Leslie Richardson.  
Mr. and Mrs. P. D. Richardson and  
Family.

JUSTICE COURTS.  
In Squire Arenz's court Luke  
Clougher was fined \$3 and costs for  
being drunk.

## FALSE ALARM.

A false alarm was sent in to the  
fire department from the square Sat-  
urday morning about 9 o'clock.

## WHEN OTHER MEDICINES HAVE FAILED

take Foley's Kidney Cure. It has  
cured when everything else has dis-  
appointed. Sold by J. A. Obermeyer,  
City Drug Store.

## PROBATE COURT.

Estate of Nellie Elliott, deceased;  
petition of W. J. Elliott for probate  
of will. Proof made of notice by  
clerk to all heirs, legatees, etc. No  
objections filed. Proof made of due  
execution of will and same ordered  
admitted to probate.  
Estate of Charles E. Strawn, de-  
ceased; petition of Christina Strawn  
for guardianship. Bond as this day  
filed approved and letters of guar-  
dianship ordered as prayed for.  
Estate of Mary Cross, deceased; pe-  
tition of Mary L. Cross for probate  
of will. Proof made of notice by the  
clerk to all heirs, legatees, etc. No  
objections filed. Proof made of due  
execution of will and same ordered  
admitted to probate.  
Estate of Robert Fleming, decen-  
sed; additional bond for sale of real  
estate for \$10,000, as this day filed,  
approved.

## INCREASE IN WAGES.

The local Wabash crossing flagmen  
were made happy yesterday by the an-  
nouncement that their wages have  
been increased to the extent of \$5 per  
month, beginning July 1. It is very  
welcome news to the men and came in  
the nature of a surprise, as they had  
anticipated no such action on the  
part of the company.

## CONVENTION SOUVENIR.

The Journal has received a hand-  
some souvenir of the Republican con-  
vention held in Springfield. The  
booklet contains twenty-eight pages  
and is beautifully illustrated in col-  
ors. On the cover is a splendid pic-  
ture of the arsenal, "where the battle  
was fought." The souvenir has been  
published and circulated with the  
compliments of James A. Rose, can-  
didate for secretary of state.

## NOTICE.

There will be a meeting of the  
Gentlemen's Driving club at Dr. J.  
W. Sperry's office Monday, Aug. 2, at  
7:30 p. m. All members are urged to  
be present. Important business.  
J. W. Cleary, Pres.

E. Jericho, Sec.

## WABASH ANNUAL NIAGARA FALLS EXCURSION.

On Thursday, Aug. 18th, the Wa-  
bash will run their annual excursion  
to Niagara Falls, N. Y., and return  
for \$9.50. Good for return until  
Aug. 29th. Phone No. 12.

W. A. Evans, Ticket Agent.

## AWAY FOR THE SUMMERTIME.

The mountains, seaside or springs  
of California bring happiness for  
everybody. The Yosemite valley, the  
big trees, boating, fishing, golfing  
every day in the year. Most deligh-  
tful climate in the world. The Union  
Pacific is the best line. Makes quick-  
est time. Ticket office, 903 Olive St.  
St. Louis, Mo.

## AN ODD SALE.

Tomlinson & Babb Saturday made  
an unusual sale, when the season of  
the year and the excessive heat is  
taken into consideration. It was  
nothing less than a pair of ear muffs,  
such as are so popular in extremely  
cold weather. It might be added by  
way of explanation that the purchas-  
er is employed in the ice plant.

## LOW ROUND TRIP RATES.

St. Louis to Denver and return  
\$25.00.  
St. Louis to Salt Lake City and  
return \$38.00.  
Low rates to other western points  
via Union Pacific. Quickest time.  
Ticket office, 903 Olive St. St. Louis.

## REAL ESTATE TRANSFERS.

...It's a Rare Chance...

It is not too late to order a suit for summer wear.

There are many more days of hot weather and you will  
need light weight suiting.

Order now while we are making special mid-summer  
reductions. The fabrics are elegant and prices low.

**A. WEIHL**

**Athens Coal**

Is a free burning Illinois soft  
coal. Burns clean, making  
few clinkers and ashes. It cost  
no more than other coal. De-  
livered promptly and carefully

Orders left at 216 West State Street with T. P. Laning  
will receive prompt and careful attention.

**U. J. HALE**

Yards corner Brown Street and Lafayette Ave. Phones 74.

## ICE TEA

We will sell for a short time only, while the present lasts, a good mixed tea for

30c per lb.

Or 4 lbs. for \$1

## ZELL'S GROCERY

East State St.

Bell, 2102—Phone—111, 108.

## A SEVERE TEST

The use of extremely hot drinks and of ice water on our teeth is productive of disastrous results to the teeth. The use of the icy fluid and the hot so closely following it makes a severe test, and the dentist must be consulted in time, to save painful work. Don't delay. Examination free.

H. L. GRISWOLD, Dentist  
West Side Square.

## ALL ABOUT THE Eyes

If this interests you cut it out and bring to Bassett & Fairbank's jewelry store.

A. M. Hallowell, Doctor of Optometry, upon receipt of same will examine your eyes free of charge and will advise what course to take to remedy any error of refraction that may exist.

## Bassett &amp; Fairbank JEWELERS

## AUGUST WEATHER

Prof. Hicks Predicts a Variety of Conditions Will Obtain—  
Extreme Heat and Killing Frost.

Cold and frost, hailstorms and cyclones, hurricanes and volcanic eruptions—a freezing and a teasing kind of weather is predicted by Rev. Irl Hicks for the month of August. He says weather should be cold enough for a killing frost the latter part of the month. In fact, he states that it is more than likely that this condition will obtain.

After heavy storm and bluster about the 3d, 4th and 5th, look for rising barometer, westerly winds and cooler.

The disturbances of this period, whether or not West Indian storms come up from the south, may be expected over most interior parts of the country from Saturday, the 13th, to Tuesday, the 16th; the culmination falling most likely on the 14th and 15th. Vicious thunderstorms and high gales will center about Sunday, the 14th. If equatorial hurricanes or cyclones should make their presence felt about our southern coasts at this time the storms that visit our interior states a few days later will be followed by unseasonably cool weather. Otherwise the heated term will not be broken effectually until after the storms of a subsequent period.

Reactionary storm conditions will return on and next to the 19th and 20th. This period will be within the brace of the earth's autumnal equinox and near the center of the Venus period, thus increasing the probability of equinoctial storms on the south waters and along the southern coasts. There is almost a scientific certainty of such storms in such parts of the earth before the end of August.

It is well to remember that destructive Venus hailstorms are almost sure to attend the storms, especially in the great northwestern grain regions, during the last half of August. We do not know what precautionary steps can be taken against such visitations, but whatever may be possible or practicable should not be neglected. Change to rising barometer and very much cooler, especially at night, will follow for some days the reactionary storms centering about the 18th and 19th.

The last regular storm period for August is central on the 26th, extending from the 24th to the 30th. Within this period the moon is at full on the 25th, in the apex on the 26th and on the celestial equator on the 28th. This period is also at the center of the Venus perturbation and fully under the pressure of the earth's September equinox. We may therefore confidently anticipate some very marked storm disturbances at this time. Whether hurricanes and cyclones have or have not come up from the equator to our southern waters and coasts, during previous August periods, in every probability such storms will appear at this last period. These storms will touch inland sections and counter storm areas will be induced from northwestern extremes, bringing many heavy and some dangerous storms throughout the southern and central states.

The indications are that the general disturbances of this last period will be followed by a general high barometer, with fierce high winds and unseasonably cold weather out of the northwest.

## GOLF NEWS.

Three players from the Springfield Golf club, George W. Chatterton, Jr., J. Bunn Henkle and A. Campbell Brown, will probably enter the west-

ern amateur championship play to be held on the course of the Exmoor Country club, twenty-four miles north of Chicago, Aug. 16 to 20.

For the players not qualifying in the championships a number of prizes have been hung up to be played for. Walter Egan, of Exmoor, is the favorite for the tournament. He is the present holder of the title of western amateur champion, and by reason of the fact that the tournament is to be played on his home course, he stands a good show to win. —Springfield Journal.

## ELEMENTS OF THE SOIL

Scientific Analysis Has Brought to Light Many Facts of Value to Farmers.

A. J. Woolman, of Urbana, and M. B. Coburn, of St. Louis, were in the city Saturday and met many of the farmers of the county at the court house in the superintendent of school's office, and discussed the question of soils.

Mr. Woolman was until recently connected with the agricultural department of Champaign University and has made the question of soils a practical study for many years. Mr. Coburn has taken up the work quite recently.

The object of their visit to this locality was to acquaint the farmers and those engaged in the operation of large farms with certain conditions that have been found to be true regarding the soil of Illinois. The gentlemen were interviewed at the Dunlap hotel Saturday evening by a Journal representative and explained in detail the object of their visit.

"Science has demonstrated that there are in the soil certain chemical elements that produce plant life. Three of the principal elements are nitrogen, phosphorus and potassium. When these elements are present in the right proportions the soil has reached its highest possible productive power. Every crop raised lessens the quantity of these properties and unless some method is employed to reproduce these chemical elements the land in time becomes what is called poor or thin.

"Less than twenty years ago the farmers were confronted with a grave question when the element of nitrogen was becoming so scarce in the soils of the state as to cause great alarm. There were no salt petre beds of any consequence and it was a serious problem as to how this element was to be given back to the soil after being once taken from it.

While this subject was receiving the careful attention of agricultural colleges and practical farmers, Professor Davenport, dean of the agricultural department of Champaign University, was traveling in South America and on his return came by way of England. While in England he visited Messrs. Laws and Gilbert, agriculturists of world-wide fame, and from them he learned that clover, cow pens and plants of the leguminous family would take up nitrogen from the air and re-deposit it in the soil. Through Dean Davenport this fact became generally known in the United States and since that time clover has been used extensively to rest the soil and renew the element of nitrogen taken from it by continued and over cultivation.

"Thus the means of reproducing the element of nitrogen was solved and for years little attention was paid to the lack of any of the other elements, until through the soil analyses upon which the state expends \$25,000 annually, brought to light the fact that the element of phosphorus was also decreasing at an alarming rate and the need of replenishing the soil with this chemical substance is now becoming more and more necessary each year.

"There are only four phosphorus beds in the United States. One is in South Carolina and was discovered about the time of the civil war, the appetite deposits are in Canada, there is a bed in Florida and about nine years ago a very rich deposit was discovered in Tennessee.

"For many years the European countries, whose soil is much more worn than ours, and consequently in need of the life-giving elements, have imported the product from these various beds. The cotton planters of the south have also drawn largely on these beds to rejuvenate their soil.

"The richness and great fertility of the land in Illinois and other prairie states have caused farm owners to be negligent regarding the conditions in their own localities.

"The need of phosphorus in these prairie states has been more and more apparent with the increasing years until now, according to Dr. Hopkins of the University of Illinois, there are in Illinois alone 20,000,000 acres of farm lands that are greatly deficient in the phosphorus element.

"Among those who are interested in this scientific fact which has been determined by careful investigation are Messrs. Edward P. Kirby, E. S. Greenleaf and W. H. Rowe, of this city. Mr. Rowe expects to make a trial of the phosphorus fertilizer on his land in this county and Mr. Greenleaf will use some of it on land he owns in Kansas.

About ten thousand acres of the phosphorus bed discovered in Tennessee have been purchased by an American company and the output will be used principally in this country. Messrs. Wolman and Coburn will be in the city for several days.

## Races at fair grounds Aug. 4.

Laurie Lambert has returned to Kansas City to resume his work with Laurie, Harris & Co.

## RAILROAD PERSONALS

Items of Local Interest on Lines Entering the City—C. & A. Operator Transferred.

E. L. Wright, of Peoria, travelling passenger agent of the Burlington, was in the city on business interests Saturday.

Miss Grace McAllister, agent for the Alton at Woodson, has returned to work after a month's vacation.

W. H. Pretzman, who has been the Alton day operator here during the last six weeks, will leave Monday to take up his former position with the B. & M. R. at Alliance, Neb. During his stay here Mr. Pretzman has made a host of friends who wish him success in his new position. J. H. Burnham, operator of Bloomington, who has been visiting railroad men here for a few days, returned home Saturday accompanied by T. H. Holmes.

Eugene Samuel Jackson is acting as swing brakeman on the south end local.

P. C. Filson, brakeman, has been assigned to Draper's Alton train No. 88.

Charles Roberts, formerly on the auditing force of the J. & St. L. here, now timekeeper for the Big Four at Walshville, is spending Sunday with friends and relatives in the city.

Mr. Sparks of the relief department of the Burlington was in the city Saturday examining the operating force. The Burlington insures its own employees and this department is known as the relief department. Mr. Sparks commenced work at Centralia and has worked up to this city.

Niel Yonkers has permanently been assigned to engine 221. He had 231 out Friday. The engine is fresh from the shops and Mr. Yonkers is much pleased with its workings.

J. H. Leheny, C. & A. agent at Petersburg, will spend Sunday with friends in the city.

L. W. Karnes, trainmaster of the Washburn, was in the city Saturday on business interests.

Charles Jones, C. & A. brakeman, has been promoted to extra conductor.

J. O. Upp, George Squires and W. D. Robinson will spend Sunday at Lake Wood.

J. F. Stanton, passenger brakeman for the C. & A. on the south end, is enjoying a vacation at Hot Springs.

William Smith has been assigned to the position as brakeman on one of the C. & A. locals running south out of Roodhouse.

Charles Daniels, Alton agent at Murphysville, has been laying off for the past two days.

## HAVE INCORPORATED

Stock Company Organized by Joseph Heint and Sons—New Firm Will Begin Business August 1.

Articles of incorporation have recently been filed with the secretary of state by Joseph Heint, Harry Heint, William Heint and O. B. Heint of this city for the operation of a wholesale and retail florist and seed business. The officers of the company are: President, Joseph Heint; treasurer, Harry Heint; secretary, William Heint. The main office will be located in Jacksonville precinct, with a branch office on West State street.

The company will begin business Aug. 1. The real estate owned by the company includes lots 31 to 35, in Gallaher's addition, the section of ground upon which the green houses are now located.

The florist firm of Joseph Heint is one of the oldest in this section of the state and was begun in March, 1870. Since that period the business has steadily grown until it has assumed its present substantial proportions. It is the purpose of the incorporators to materially increase the business along both wholesale and retail lines.

## KNIGHTS OF COLUMBUS

Will Install Council in This City to Day—Many Visiting Brethren Expected.

Great preparations have been made for the installation of the council of the Knights of Columbus to be accomplished in this city to day. Visiting knights will be here from Springfield, Bloomington, Decatur, Alton, Delavan, Effingham and Beardstown, to the number of 300. The visiting knights and the candidates for membership will meet at the Pacific hotel this morning and attend services at the Church of Our Savior in a body.

At 1:30 the meeting for organization will be held in Odeon hall on West State street. The Beardstown team, in charge of J. J. Cooke, will administer the work in the first and second degrees, and the third degree will be conferred by a team from Bloomington, led by Joseph J. Thompson. The ceremonies will be conducted by State Organizer M. J. Gleason.

At 8 o'clock a grand banquet will be held in Armory hall. At its conclusion a program of toasts will be given. The caterers will be Vickery & Merriam, and Jeffries' orchestra will furnish the music.

Mr. and Mrs. Edward Clifford and Miss Helen Lambert left Saturday for a visit in Chicago.

Homes-ekers' excursion rates via the Burlington to points in the west, northwest and southwest, Aug. 2 and 16.

The Time to bring in your Keys IS NOW. The time originally set for bringing in the keys to the \$100 box was August 1st, and persons holding keys are requested to bring them at their earliest convenience to be tried. Somebody has the key and it is worth \$100. It's worth everybody's attention. Without the public's assistance it will be impossible to find it.

HOCKENHULL BLDG. JACKSONVILLE, ILL.

Fred left Jacksonville a few years ago and for five years past has filled a responsible position in the Illinois Trust & Savings bank of Chicago. He will enjoy meeting his old boy friends. They expect to visit the fair in St. Louis before returning to Chicago.

Go to the Illinois Valley Fair, Griggsville, Aug. 2 to 5.

WABASH ANNUAL NIAGARA FALLS EXCURSION.

On Thursday, Aug. 18th, the Wabash will run their annual excursion to Niagara Falls, N. Y., and return for \$9.50. Good for return until Aug. 29th. Phone No. 12.

W. A. Evans, Ticket Agent.

## BROAD AXE HAS HISTORY

Was Used in Construction of Ship Belonging to Fleet of Commodore Perry.

Carl Green, son of J. M. Green, is the possessor of an old hand axe, or "broad axe," as they are commonly called, which has an exceedingly interesting history. It was formerly the property of his great grandfather and was handed down in the family until the young man became its possessor.

The axe was used in the construction of one of the ships of Commodore Perry's fleet, upon which the possessor's great grandfather worked, he being a ship builder by trade. At the completion of the job the tool was presented to him by the boss carpenter.

The axe remained in the family and was presented to its present owner by his grandfather, A. Y. Barr. He prizes the relic very highly, not merely on account of its associations in the family, but equally because of the historic conflict with which its history is associated so closely.

## AFTERNOON COMPANY.

Miss Edith Louise Carlson entertained about twenty-five of her friends Saturday afternoon in honor of her twelfth birthday. Various games were played and light refreshments added much to the pleasure of the afternoon. After having their pictures taken all departed, wishing their hostess many happy returns of the day.

Those present were Edna Sheppard, Edna Johnson, Edith Henderson, Louise Stranberg, Margaret Stranberg, Ruth Ogle, Zella Zeller, Ruth Strawn, Irene Spears, Blanche Perry, Ethel Harney, Grace Turley, Lee Turley, Dorothy Kitchner, Vera Wells, Anna Roberts, Georgia Roberts, Elizabeth Large, Ruth Sandberg, Ruth Mitchell, Flossie Proctor, Fay Mitchell, Adelaide McCarty, Elizabeth Bell, Edith Carlson and Amelia Carlson.

You'll meet old friends at the fair Aug. 2, 3, 4, 5, Griggsville.

## OFF FOR GRIGGSVILLE.

D. C. Neal, of Roodhouse, was in the city Saturday enroute to Griggsville with a string of horses to enter in the races at the Illinois Valley fair. The bunch included Sammy Alschuler, Portland Boy, Queen Bee and Mr. Gus.

Joe Joker, formerly the property of Dr. David Strawn, but now owned in Springfield by Will H. McConnell, is entered in the 2:30 pace Tuesday, and the 2:23 pace Friday.

Finest line of free attractions ever witnessed at the Illinois Valley Fair Aug. 2, 3, 4, 5.

## WESTMINSTER CHURCH.

Three of the former members of the Westminster church choir are in the city and will be in the choir at that church this morning. Those who will be in the quartet are Mrs. Martha Duer Lamb, Mrs. Jessie Sharpe Johnson, James Babb and H. S. Weston.

## Races at fair Grounds, Aug. 4.

## OPEN AIR MEETING.

Preaching by Dr. H. H. Oneal in the public square this evening at 6:30.

## "WHY SOME MEN ARE NOT RELIGIOUS."

The above subject will be the theme of a sermon to be delivered by Rev. A. L. T. Ewert at Centenary this evening at 7:45. All should meet the opportunity to hear it. In the morning will be reception to those who are to unite with the church. There will be a beautiful and inspiring service.

Westminster Presbyterian church—Rev. Melvin R. Laird, of Mayaville, will occupy the pulpit this morning. Sunday school at 9:30. Morning service at 10:45. There will be no evening service.

# AS A MEASURE OF PUBLIC INTEREST AND INFORMATION AS TO TRAINING SERVICE TO ESOPUS.

The Home of the Democratic Presidential Nominee.

Esopus is on the river division of the West Shore railroad, sixty-one miles from Albany, and all the great through trains over the New York Central make connection at Albany with West Shore trains for Esopus. And in addition to West Shore local trains stopping at that point, it has been arranged to stop all through trains to land or pick up passengers.

When illious take Chamberlain's Stomach and Liver Tablets. For sale by all leading druggists.

**THE ORIGINAL.**  
Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for FOLEY'S Honey and Tar and refuse any substitute, as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. For sale by J. A. Obermeyer, City Drug Store.

## ORPHANS' HOME

Purpose, Organization and Methods of Institution at White Hall.

**OBJECT.**  
"The object of this society shall be to receive, clothe and to place in carefully selected and well approved family homes, any homeless, dependent or orphan children who are found in mind and body, and not incorrigible, and whom the society may accept. Constitution, Art. I, Sec. 1, 1890. The children from infancy to fourteen years of age are cared for."

**HEADQUARTERS.**  
White Hall, admirably situated for carrying on child-saving work. It is in Greene county, Illinois, at the junction of the C. & A. and the M. & St. L. railroads. It is surrounded by a rich agricultural district, has a population of 2,500 inhabitants, is free from saloons, and is one of the most healthful and prosperous cities in the state. Here is located the receiving home, a large and well equipped building of thirty rooms recently painted and papered. As children come into the hands of the society, they are brought to this home until a permanent home is found for them.

The receiving home is the private property of Mr. Dewell, purchased by him over four years ago, and occupied as his family residence ever since. No child has ever been expended upon it by this or any other society. The citizens of White Hall have for many years been generous in their support of the society. The use of it is generally donated to the White Hall Orphans' Home Society.

**ORGANIZATION**  
The society is organized for purely

charitable purposes, and is controlled by the following board of managers:

President—F. Fowler (merchant).  
First vice president—H. C. Morrow (president of the White Hall Sewer Pipe and Stoneware company).  
Second vice president—E. J. Pearce (proprietor and publisher of the White Hall Republican).  
Secretary—E. H. Lugg (pastor Methodist Episcopal church).  
Assistant secretary—George C. Wenger (attorney at law).  
Treasurer—F. Greer (merchant).  
Counselor—W. L. Winn (attorney at law).  
Medical director—H. A. Chapin (physician).  
Superintendent—J. N. Dewell (Methodist minister).  
All the above except George C. Wenger are residents of White Hall.  
The board of managers holds a meeting on the first Tuesday in January, April, July and October.  
Messrs. Fowler, Lugg, Greer, Winn and Chapin constitute the executive committee and hold a meeting on the first Tuesday of each month.

**FINANCES.**  
This is a strictly charitable work. No charge is made for receiving or placing a child. The funds are raised entirely by public or private contributions.

The society is organized on a sound financial basis. Ten per cent of the gross receipts is set aside as a sinking fund for the endowment of the society. The constitution forbids the incurring of expense unless there is money in the treasury to meet it. Hence no debts are contracted. The executive committee audits and pays all bills. Every cent is promptly and economically handled. No officers, except those to the field, receive any salary or compensation whatever. All money possible is saved and expended on the children.

**TERRITORY.**  
Last year financial aid was received from two-twelve counties. From one to seven children were either received or placed in the following eighteen counties: Adams, Bond, Brown, Christian, Cook, Greene, Jersey, Macoupin, Madison, Menard, Montgomery, Morgan, Pike, Sangamon, Schuyler, St. Clair and St. Louis. It should be distinctly understood that this society is not connected with any other institution.

**WORKERS.**  
The board of managers are convinced that they are wisely in reappointing Rev. J. N. Dewell as superintendent for the ensuing year. Mr. Dewell served several years as agent for another society, but resigned and vacating that position received from the superintendent the following testimonial: "Chicago, Ill., Oct. 3, 1902.—To Whom It May Concern: Rev. John N. Dewell, of White Hall, Ill., has been in the service of the Illinois Children's Home and Aid Society as district superintendent for the past eight years. A. Dewell has been an exceedingly active and earnest worker, has found homes for a large number of dependent children, and has been remarkably successful in raising funds for the work of the society. We regard him as a man of unusual activity and capability, and have our best wishes for his future prosperity and success."

Mr. Dewell has had nine years experience in child-saving work and has probably made greater personal sacrifice and placed a larger number of children in good family homes than any other worker in the state. He has been remarkably successful in fitting the right child into the right home. He is kind and high in spirit, and is known over twenty counties as "the orphan man." His life is lived for the society on a salary which exceeds his entire energies to the work.

Mr. Dewell is a member in good standing in the Illinois conference of the Methodist Episcopal church, and at the last session was appointed by Bishop C. H. Fowler to this work.

The White Hall Republican, of recent date, referred to the assistance rendered by this society in the following complimentary terms: "Rev. W. H. Breach, assistant superintendent of the White Hall Orphans' Home society, is one of the best known ministers in this section. He was born in western Maryland, Nov. 18, 1854, but was educated in England, and there he was married. He has the easiest and most pleasing way of not only an eloquent speaker, but a very fine singer."

**WARNING.**  
During the past year unauthorized persons have traveled over the country soliciting funds, pretending to represent organizations that have no existence. The authority of strangers to solicit funds should be scrutinized by contributors and satisfactory evidence demanded. The board learns also that dishonest parties have collected money by using the circulars and placards of the receiving home. Some of them have even pretended to be working for, or in the place of, Mr. Dewell, our superintendent. All our agents carry credentials signed by the executive committee. The public is hereby warned against impostors.

**OUTLOOK.**  
The need of this society has been fully demonstrated in the past year and a half. The amount and quality of work performed are surprising to all concerned. Churches, county supervisors, commissioners and the public generally have given it a hearty welcome and a strong financial support.

During the nine years that Mr. Dewell has been engaged in child-saving work a single death has occurred among the children, and two hundred children have been cared for by Mr. Dewell and himself. While in the receiving home the children have the best of care, being kindly treated and well fed.

Believing that the best method of preventing pauperism and crime is to teach each child early in life how to work and

earn his own living, it is the purpose to prepare to give industrial training in connection with the home. This is one of the objects of the endowment fund. We shall not acknowledge the liberal donations and kind words spoken in behalf of the society in the past and assure contributors that the future is bright with the promise of all larger results.

Information concerning homeless children, or families desiring to receive a child, will be thankfully received, and promptly attended to. Address: White Hall Orphans' Home Society, White Hall, Ill.

Signed: BOARD OF MANAGERS.

**ONE LADY'S RECOMMENDATION SOLD FIFTY BOXES OF CHAMBERLAIN'S STOMACH AND LIVER TABLETS.**  
I have, I believe, sold fifty boxes of Chamberlain's Stomach and Liver Tablets on the recommendation of one lady here, who first bought a box of them about a year ago. She never tires of telling her neighbors and friends about the good qualities of these Tablets—P. M. Shore, Druggist, Rochester, Ind. The pleasant purgative effect of these Tablets makes them a favorite with ladies everywhere. For sale by all leading druggists.

### NOTICE TO CONTRACTORS.

Bids will be received at the city hall in Jacksonville, Ill., by the board of local improvements of the city of Jacksonville, until 2 o'clock p. m., of Monday, Aug. 1, at the city hall, when and where they will be publicly opened and declared; for the construction of a pipe sewer with specifications and profiles on file in the office of the public engineer.

Bids shall be on blanks provided by said board, and each bid shall be sealed in separate envelopes and indorsed with the bidder's name and the name of the sewer bid upon.

Payments will be made in cash or improvement bonds bearing interest at the rate of 5 per cent per annum. The board reserves the right to reject any or all bids.

John R. Davis,  
C. W. Brown,  
J. W. Harney,  
Board of Local Improvements.

### SURE CURE FOR PILES.

Itching piles produce moisture and cause itching, this form as well as Blind, Bleeding or Protruding Piles are cured by Dr. Bo-sank's Pile Remedy. Stops itching and bleeding, absorbs tumors, cures a jar at druggists or sent by mail. Treatise free. Write me about your case. Dr. Bo-sank, Philadelphia, Pa. For sale by Lee P. Alcott.

### TREAT YOUR KIDNEYS FOR RHEUMATISM.

When you are suffering from rheumatism the kidneys must be attended to at once so that they will eliminate the uric acid from the blood. Foley's Kidney Cure is the most effective remedy for this purpose. R. T. Hopkins, of Polar, Wis., says: "After unsuccessfully doctoring three years for rheumatism with the best doctors, I tried Foley's Kidney Cure and it cured me. I cannot speak too highly of this great medicine." Sold by J. A. Obermeyer, City Drug Store.

### FINE PEACHES.

E. E. Jackson has brought to the Journal office two very fine peaches of the "Ostrander Early" variety, picked from a tree at his home on South Clay avenue. The fruit is sound, without a blemish and large in size. His trees are three years old and this is the first fruit, there being about half a bushel on each tree.

### FOR OVER SIXTY YEARS

Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Foley's Kidney Cure purifies the blood by straining out impurities and tones up the whole system. Cures kidney and bladder troubles. Sold by J. A. Obermeyer, City Drug Store.

### BIRTHDAY PARTY.

Mrs. Arnez, of Hooker street, entertained a company of young people Friday in honor of her daughter's eleventh birthday. Those present were Lillian Jackson, Ruth Black, Mabel Black, Lillian Carter, Evelyn Craven, Willie Arnez, Hazel Smith, Anna Smith, Melbie Day, Elsie Walker, Paul Hayes, Penner Arnez, Ralph Craven, Evalie Arnez, Inez Arnez, Gladys Smith, Flora Jackson and Ila Smith.

### A TEE'S WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, tonifies emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women; regulates bladder troubles in children. If not sold by your druggist it will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. E. W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by J. A. Obermeyer, City Drug Store.

### READ THIS:

Jacksonville, Ill., Aug. 24, 1901.—For twelve years I have suffered from sweet diabetes and have spent hundreds of dollars with various doctors, with little benefit. I was recommended to try a bottle of Texas Wonder, Hall's Great Discovery, and two bottles cured me. I give the public that it did me more good than all things else put together and am altogether another man. I have persuaded many of my friends to try it.

JOHN R. DAVEY, Greer.

J. A. OBERMEYER, City Drug Store.

Christian Endeavor at 6:30 p. m. Evening service at 7:30. Subject of sermon, "Altogether a Christian." A cordial invitation to attend is extended to the public.

### PATENT MEDICINES.

A man that compounds or invents something that is just a little better than the next best thing, is certainly entitled to the best share of the profits to be derived from the sale of the article. So he patents or copyrights to protect his interests. Patented goods are good goods, poor goods are never patented. We have 20 years of trial behind us to give us the assurance that we have the best medicine compounded for the cure of dyspepsia, sick-headache, biliousness, indigestion and all stomach disorders. We protect the public as well as ourselves by keeping the formula a secret, as long as we make it we know it is the one medicine that the sale is over on the increase. To get the best remedy for dyspepsia or indigestion ask the druggists for Dr. Gunn's Improved Liver Pills, price 25c per box, only one for a dose. For sale by Lee P. Alcott.

### PLEASANT REUNION.

Not long since in Waverly occurred a very pleasant gathering of brothers and sisters, uncles, aunts and cousins. The happy occasion was planned by Miss Carrie Root in honor of her brothers, then visiting her. It was in the nature of a picnic at the hospitable home of Mr. and Mrs. Leigh. While gathered on the pretty lawn a photographer took a picture of the group, and two snapshots were also taken. It was an ideal day and after doing ample justice to the generous provision of good things to eat the time was pleasantly spent in conversation and music, and all too soon the guests had to leave for the train, wishing they might all again attend another reunion in the near future.

Those present were Mr. and Mrs. C. A. Root and son Earl of Devoer, Colo., Mr. and Mrs. Ed N. Root and daughter Bertha of Hillsboro, Miss Emma Post of Springfield, and niece, Miss Mildred Macauley of Waterbury, Conn., Miss Lizzie Van Kirk of Trenton, N. J., Miss Carrie M. Root, Mr. and Mrs. E. F. Leigh and Miss Estella Leigh, Mr. and Mrs. James M. Joy of Waverly, Mrs. Frank Irving and daughters Ruth and Margaret and Mr. and Mrs. James I. Barrows of Jacksonville.

### CURED OF CHRONIC DIARRHOEA AFTER TEN YEARS OF SUFFERING.

"I wish to say a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mrs. Mattie Burgo, of Martinsville, Va. "I suffered from chronic diarrhoea for ten years and during that time tried various medicines, without obtaining any permanent relief. Last summer one of my children was taken with cholera morbus, and I procured a bottle of this remedy. Only two doses were required to give her entire relief. I then decided to try the medicine myself, and did not use all of one bottle before I was well and free from complaint. One cannot say too much in favor of that wonderful medicine." This remedy is for sale by all leading druggists.

Read the Journal; 10c per week.

## WOMEN LIFE SAVERS.

Volunteer Crew at Savin Hill Beach, Dorchester, Mass.

YOUNG AND PLUCKY SWIMMERS.

Some Have Figured in Heroic Rescues and All Will Be Trained by Experienced Instructors to Aid in Water Emergencies—All the Crew Are Very Enthusiastic.

Six young women, all pretty, well formed and athletic, have organized a volunteer life saving crew at Savin Hill beach, Dorchester, Mass., for the protection of bathers and swimmers who visit there during the summer months, says the Boston Herald.

For the past three years there has been a volunteer crew of life savers stationed at the pretty beach at the head of Dorchester bay, but made up of men. The crew was very enthusiastic for two years, but last season it seemed to lose interest in the work and early this season disbanded.

The heroic rescue on June 18 by Miss Agnes L. Kersey of a boy named Edward Gillis, together with her previous rescue and the saving of life by other young ladies at the Savin Hill beach, suggested the organization of a girls' crew of life savers, and a few days ago the corps was instituted, with Miss Agnes L. Kersey as captain.

It is the first organization of its kind ever formed in the world, and the young ladies comprising the crew are being roundly congratulated for taking the initiative in such a humane cause, and in Worcester and one or two other places the formation of other crews of young women is now in progress.

The Ladies' Volunteer Life Saving corps of Savin Hill beach, which is the name adopted by the plucky young women, will engage in regular boat drills and rescue work and will be trained to the work of restoring the apparently drowned and otherwise fitted for the duties they may be called upon to perform.

Such experienced instructors as Peter S. McNally, James C. Hurley, Thomas P. Delahunt, John W. Glenister, Walker A. Smith and M. J. Leary will devote much time to fitting the crew for all kinds of emergencies. It is confidently expected that it will give a good account of itself during the season.

The people of Dorchester are deeply interested in the corps and have promised to lend every assistance to promote its efficiency. The young women of the crew are very enthusiastic. They are above ordinary intelligence and have a full understanding of the dangers they may be called upon to meet. Following are brief sketches of the life savers:

Miss Agnes L. Kersey, captain, is nineteen years old, has saved several from drowning by swimming out to them and towing to safety. She was born in Milton, where she at present resides. Miss Kersey is of very rugged constitution and delights in all kinds of athletics. She learned to swim three years ago under the instruction of Peter S. McNally and Walker A. Smith and is very proficient in the art, swimming all styles and performing most difficult feats with ease and grace. She never seems to tire in the water, and the distances she swims would make many strong male swimmers tired to even think of them.

"Miss Kersey's girl friends call her 'the amphibian,' for she spends almost as much time in the water as out of it. In the summer of 1902 she rescued a ten-year-old girl at Savin Hill who had got beyond her depth, and last summer she assisted several to the shore who had become exhausted.

One of a swimming family, having two brothers and two sisters who are experts. During the summer months she lives with her sister, Mrs. Thomas Delahunt, at Dorchester, a short distance from Savin Hill beach.

Miss Mary D. Kersey, a sister of Agnes, is a member of the crew. She is a capital swimmer, strong and plucky. She is fearless in the water. She says she would swim daily throughout the winter but for the fear that she might be regarded as unsound mind. A year ago Mary rescued a woman and a child who were thrown overboard from a catboat in an upset and swam with both for fifty yards until assistance arrived.

A charming young woman is Miss Georgina Milne, seventeen years old, born in Roxbury of Scotch parentage, a graduate of the Edward Everett Grammar school, Dorchester, and the girls' high. She lives at Dorchester and is very athletic, can run like a frightened deer and can swim untiringly. She learned to swim at Savin Hill beach about four years ago. "Two little girls owe their lives to Georgina's presence of mind and bravery. She rescued them at Savin Hill beach last summer, both rescues being made on the same day. Miss Milne is a clever oarswoman, a good canoeist, can sail a catboat and is an enthusiastic baseball fan.

Margaret Mills, eighteen years old, whose home is in Dorchester, is tall, wiry and strong. She has been able to swim since she was thirteen years old and is thoroughly familiar with the waters of Dorchester bay. She is plucky and will render good service when required. Miss Mills is interested in all kinds of athletics.

The smallest member of the crew is Miss Annie H. Grieve of Dorchester. She is nineteen years old, five feet one inch in height and weighs ninety-six pounds. She has been swimming since she was eleven years old. Miss Grieve

is exceptionally strong for a young woman of her physique and has several trophies won in girls' running races at the Scotch picnic. She comes of an athletic family, her father having been the champion football player of Scotland. He was formerly captain of the Boston Caledonian club. Miss Grieve graduated from the Edward Everett school, Dorchester, and the Dorchester high school.

Tuggedly built and an enthusiastic swimmer is Miss Eunice Slane of Dorchester. She is seventeen years old and has been swimming for eight years. She is a good all around athlete, a clever tennis and golf player, rides horseback and rows like a professional. She has assisted several persons to shore who would surely have been drowned but for her timely aid. Miss Slane is a graduate of the Edward Everett school, Dorchester.

Some time during the month of August the Ladies' Volunteer Life Saving corps of Savin Hill beach will give a free public demonstration of the methods employed in saving life and will be assisted by several famous swimmers in nautical exhibitions.

### AMERICAN COLLEGES BEST.

Consul Diederich Contrasts German Universities With Ours.

That the practice of Americans seeking education abroad is barely holding its own because of the increasing excellence of American colleges is the conclusion drawn from statistics showing American attendance at German colleges, submitted to the state department by United States Consul Diederich at Bremen, Germany, says a Washington dispatch.

Mr. Diederich says that the number of foreign students, especially of those coming from Russia, has steadily grown, but a careful study of the attendance at the German universities seems to show that Americans have not been adding to this increase.

There were only seven more Americans enrolled last winter than there were four years ago—317 in all.

"During the nineteenth century German universities led the world in erudition and scientific investigation and their great professors attracted many students from all parts of the world in quest of higher education," says Mr. Diederich. "But times are altered."

"Having myself been engaged in educational work as an American college professor for a good part of my manhood, I have naturally taken considerable interest in the life and work at the various institutions of learning in this country, and it is my impression that the facilities for higher education are improving in the United States much more rapidly than in Germany. Despite all our imperfections, one cannot but admire the great upward strides which the American system of education, from the humble district school up, has been making during the last few decades."

"American educational institutions are the best equipped in the world. I know but one German university that can claim to be up to the times in this regard, and it stands third in the list of attendance. There is steady progress all along the line of public instruction in the United States, and particularly in our higher class of universities."

### MOSQUITO REMEDY.

New Mown Hay's Value Described by a Citizen of Galveston.

A gentleman living in Galveston, Tex., who occasionally goes into the country for a day or two came back from a recent trip with a brand new mosquito remedy, says the Galveston News.

"You can talk about your screens on the cisterns and buy the best bars for your bed, but I am here to tell you that there is nothing like new mown hay to keep the little pests from you. I have just been up in the country, where the mosquitoes are as thick as fleas on a common cur, and after vainly trying to sleep in the house I got up and went out into a pile of new hay and slept soundly the rest of the night. I was in the open without any bar or covering of any kind and not one mosquito came near me."

"How do I account for that? Well, at first I did not know just the reason; but after trying the experiment several times I came to the conclusion that the mosquitoes do not like the smell of new mown hay, or any hay for that matter. No, I would not advise the citizens of Galveston to buy a bale of hay and spread it out on their bedroom floors for a place to go to, but if any of them have occasion to go into the country and are driven out of the house by the pests, let them make their bed in the hay, and I'll guarantee that they will get a refreshing night's sleep."

### Creek Indians' Stomp Dance.

Within a few weeks will begin another favorite summer sport of the Creeks which is now on the wane, the stomp dance, says the Kansas City Journal. Stomp dances were formerly held in all the Indian towns, but now only in the strictly fullblood settlements. These come on about the time green corn is old enough to eat. A stomp is called, and all the town, sometimes two, combine and assemble. The bucks go out and hunt until they have killed enough game for a feast. The roasting ears are pulled and prepared, and the eating and dancing begin. The dance resembles the gift of a rum jing as he starts on a charge, and it is accompanied by such noises as only Indian voices can produce. The dancing and feasting are kept up from one to three days and end with a big ball game and feast. Then the medicine man, without occult ceremony, extinguishes the fires, builds a new one, and from this new one each family takes home fire and starts a fire on its own hearth.

# RAWLINGS CLOTHING CO.

## Hot Weather Goods

In Suits, Coats & Vests, and Odd Coats at Cost.

## Odd Pants

We can save you money. Prices from

**\$1.50 to \$4.00**

F. A. MOSELEY, V. P.

M. H. HAVENHILL, Sec'y-Treas.

### INDICATIONS.

Washington, July 31.—For Illinois: Showers and not so warm Sunday. Monday fair, fresh west to northwest winds.

### FISH FRY AT WAVERLY

**Saturday Was Another Successful Day—One of the Largest Crowds in History of Town Present—The Program.**

Saturday was the closing day of the grand free fish fry at Waverly, and it was marked with crowds even greater than those which assembled on Friday. As on the opening day, the crowds were well cared for and nobody needed to lack for anything in the way of either entertainment or necessities of life, as excellent fish and refreshments were freely dispensed.

The fry opened at 5 a. m. with a grand salute, which started off the festivities of the day in fine shape. During the morning a fine program was rendered by the band and at 11:30 free fish were dispensed and enjoyed to the utmost by the participants.

The afternoon opened with a band concert and at 3 o'clock the horse show took place. There were many entries and the judges had great difficulty in naming the winners.

They were as follows:

Pony race—First prize, \$3, Henry Roland; second prize, \$2, Mose Davis. Pony in harness—First prize, \$3, Louis Boston; second prize, \$2, Francis Rantz.

Single trot—First prize, \$5, Star Carier; second prize, \$3, I. O. Walls. Single pace—First prize, \$5, W. A. Masters; second prize, \$2, Dennis Jarrett.

The saddle, double drivers and slow mile contests failed to fill.

At the close of the horse show there was another balloon ascension, and the evening closed with band concerts and a grand display of fireworks.

### SOLD AT COURT HOUSE

**Several Pieces of Residence and Farm Property Changed Hands Saturday.**

Several pieces of residence and farm property changed hands under the hammer at the court house Saturday afternoon.

The former residence property of the late Judge Whitlock, known as 485 East State street, 70x270 feet, was sold to Miss Josephine M. Hairgrove for \$5450. Capt. John E. Wright was the auctioneer.

The Chambers property, known as 1008 Grove street, 62½x102 feet 8 inches, was bid in by Peter Tilton for \$2300. C. B. Lewis sold the property.

John F. Clark, master in chancery, sold the 106 acres in sections 27 and 28, in 13-10, belonging to the Bradford Story estate, for \$49 an acre—\$5194. John N. Osborne was the purchaser. Capt. John E. Wright was the auctioneer.

Master in Chancery Clark also sold fifty acres belonging to the Nancy J. Burnett estate, situated in 32-14-8, to Abner T. Bland for \$79.50 an acre—\$3975.

**Reduced railroad rates to the fair all next week. Come and have a good time.**

### EPWORTH LEAGUE

The Epworth League of Centenary church will meet to night at the usual hour. Miss Olive S. Dunlap, leader. Lorin Cannon will sing a solo. There will be special singing and good speaking. All are cordially invited to attend.

### ZALEE.

**PLEHVE'S SUCCESSOR.**  
London, July 30.—A dispatch from St. Petersburg says Count Ignatieff will succeed the late Plehve as minister of the interior.

### DEATH RECORD

#### PIKE.

Mrs. Rose Woodward-Pike, daughter of Mr. and Mrs. W. T. Gilmore, died at her home in West Point, Iowa, July 23, after an illness which extended over several years.

Mrs. Pike, previous to her marriage, was for four years a resident of this city. She had many warm friends here who were greatly endeared to her by her many endearing traits of character, and will mourn her as a dear friend. She was converted at Centenary church of this city and retained her membership there to the time of her death. She was laid to rest in the West Point cemetery in accordance with her own request.

Besides her husband and one son, Harold, she leaves her mother, Mrs. Gilmore; three sisters, Mrs. Jennie Fanning, of Litchfield; Mrs. Emma Bowersoke, of Gillespie, and Mrs. Delia Pennell, of this city; four brothers, Louis Gilmore, of Ceres; Harry, of Felter, Ill.; Delbert, of Carlinville, and Theodore, of Ceres.

#### IN PAMPHLET FORM.

Under the caption "World's Fair Trip," a local patron of the Alton tells his experience. The Chicago & Alton advertising department has printed in pamphlet form the article recently written for the Journal by Dr. M. H. Goodrick regarding his world's fair trip, with an itemized account of the expense therefor. The road is distributing the pamphlet quite extensively at the local office and at all stations along the "Only Way."

#### PLEASANT EVENING.

Otis Hoffman was pleasantly surprised Saturday evening at his home. His wife planned the event in honor of his thirty-fourth birthday. The decorations were cut flowers of the golden glow variety. Miss Irene Simms and Miss Mabel Violet presided at the punch bowl. Many beautiful presents were received by the host, among which was a willow chair, the gift of his employees.

## E. W. FLANAGAN FOUND DEAD

WHILE PASSENGER ON ALTON ROAD

**Was on His Way to Jacksonville—Note Is Found—News of His Death Spreads Rapidly—Coroner Reynolds Took Charge of Body.**

Edward W. Flanagan was found dead with a bullet wound in his right temple in the observation compartment of the parlor car on the mid-night "Hummer," which arrived here Sunday morning. He was found after the train had left Petersburg and upon arrival here Coroner Reynolds was notified and took charge of the body.

Upon investigation here a note was found which read: "Put me off at Jacksonville; notify Mr. Tiekner, who is in the coach ahead; he will identify me. E. W. Flanagan."

The news of Mr. Flanagan's death spread rapidly after the arrival of the "Hummer" and his friends who first heard of it could not believe it was true. He left here last Monday and Saturday and Sunday was seen by most of his friends bidding them good bye, as he was going to St. Louis to take up his new duties with the Burlington system. His death will cause the deepest sadness to many hearts, as he was universally admired and respected by an unusually large circle of friends.

Mr. Flanagan was on his way from Chicago to this city and a short time before he was found dead had been chatting pleasantly with the passengers on the train.

Grant C. Osborne, of Chicago, western agent of the Cleveland Stone company, who was the only man in the rear of the coach at the time the shooting occurred, told the following story:

"Mr. Flanagan and myself, in company with several other men, were sitting in the reading apartment of the coach. Mr. Flanagan seemed to be a very pleasant gentleman and chatted with me for several minutes. He was sitting at the desk and in the presence of myself and several others wrote a note. He appeared perfectly cool and natural. He gave no signs of uneasiness or worry. We remember the circumstance of his having written the note from the fact that he asked the porter, who was also in the apartment, for a stamp. The porter replied that he had none and the gentleman put the note in his pocket. He got up from the table, laid his hat in a chair and lay down on a sofa, with his feet elevated. I also got up and took the chair in which he had been sitting. After lying in a restful position for a while he got up and went out onto the rear platform.

"I continued sitting at the table and somewhere the other side of Petersburg I heard a sound which may have been a pistol shot, but to which I paid no particular attention at the time, supposing it was a window falling, or some such thing. The conductor and the porter were in the forward part of the car.

"After we had passed Petersburg some distance the porter happened to go upon the rear platform and re-entered the car hurriedly. Coming into the apartment where I was sitting he said: 'My God, that man is dead back there.' We called the conductor from where he was sitting and together went to the rear platform and found that it was true."

Upon being questioned, Mr. Osborne said that it was about 8 o'clock when the note was written. The "Hummer" left Chicago about 6 o'clock. It was probably about half an hour from the time at which he heard the shot till the body was discovered by the porter.

R. Clark, the conductor of the train, said that he knew nothing, but that he and Mr. Osborne and the porter saw the body at about the same time.

The "Hummer" leaves Chicago at 6 o'clock and arrives in this city at 12 o'clock. It makes no stops between Bloomington and this city, or the body would probably have been found sooner. When the train pulled into the station here the body was in the right hand rear corner of the observation platform, seated upon a canvas stool. The right arm was extended over the railing and was hanging outside. The left arm was lying across his left leg. His head was hanging upon his breast and his clothing and the platform were saturated with blood.

The police were notified at once, and Captain Kennedy and Police-man Fernandes were the first to arrive. While awaiting the arrival of the coroner the train was held at the station. A cursory examination of the body disclosed a piece of paper partly protruding from the left pocket of his coat. This, upon being examined, was found to be a brief note written on a double sheet of C. & A. parlor car stationery and was as quoted above. The body was removed by the trainmen and placed upon a truck, where it lay until taken charge of by Coroner Reynolds.

The train pulled out from the station at about 12:45. Mrs. Cahill, a sister of the dead man, was notified and arrived while the body was being removed from the train. She was

completely overcome. Dr. Carl E. Black, the C. & A. physician, was also notified and arrived before the train left. The sad news was also sent to other relatives and friends in the city, and to his widowed mother, Mrs. Johanna Flanagan, at Waverly. The body was conveyed to Anderson's undertaking establishment in the ambulance. Dr. Black made an examination and found no injuries except the one in the head. The ball entered the right temple and came out above the left ear. There were powder marks showing that it had entered the right side. Coroner Reynolds took charge of the body. On it were found about \$30 in bills and some silver in nickels and dimes, his gold watch and fob, a bunch of keys and his railroad pass book containing some passes.

The revolver with which the deed was done was not found. Searchers were sent out along the track, but so far as could be learned at the time of going to press it was not found.

A ring, which Mr. Flanagan wore, set with a large opal surrounded with brilliants, and which was of considerable value, was missing from his person.

Edward Flanagan was 22 years of age and had been a resident of this city about three or four years. He was born in Waverly and after attending the public schools became operator at the J. & St. L. station at Waverly. Later he was promoted to the general offices of the company in this city, where he was appointed cashier. He was soon again promoted and became assistant passenger agent of the J. & St. L. system, which position he held until the J. & St. L. consolidated with the C. & B. & Q. He had only recently been appointed Burlington passenger agent at the union station in St. Louis.

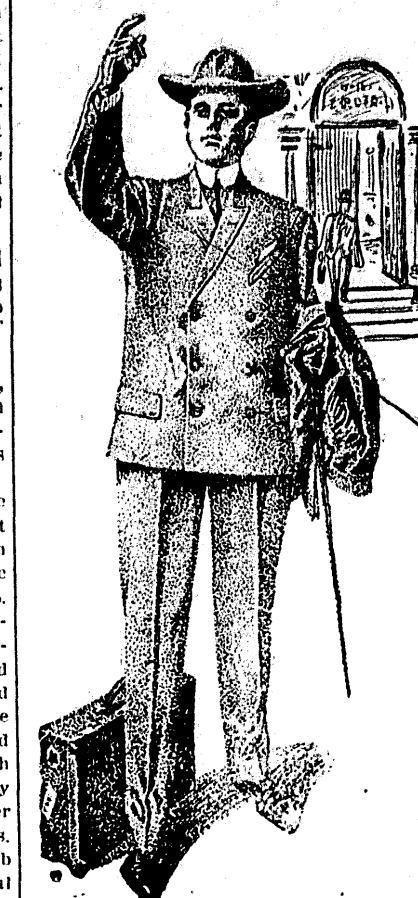

He was a member of the Country club in this city and was well known in social circles. He was also a member of the Elks' lodge of Jacksonville. Mr. Flanagan is survived by his mother, Mrs. Johanna Flanagan, residing in Waverly, and three sisters, all living in this city—Mrs. William Cahill, Mrs. Thomas Roach and Mrs. James McBride. They will have the deepest sympathy of many friends in this time of their sudden bereavement.

Mesdames Kitty Brown, Lucy Bolden, M. B. Davis, Katherine Hailthman, Sarah Rice and N. J. Blue were hostesses Saturday at a 6 o'clock porch luncheon in honor of Mrs. Hall and Mrs. Smith, of Chicago, and Mrs. Bates, of Cairo, and Mrs. Hainmoud and Miss Balliger, of Alton, at the hospitable home of James H. Brown. They were ably assisted by Miss Lydia Burfit and Miss Bertha Hailthman.

## It's not what we say

That makes the Buck's stoves and ranges go—It's the actual experiences of actual users that swells our daily sales. Neighbor tells neighbor that they are better, that they use less fuel, cook quicker, bake more evenly, heats water faster, etc., and the news spreads and our sales increase.
